

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

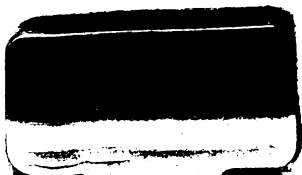

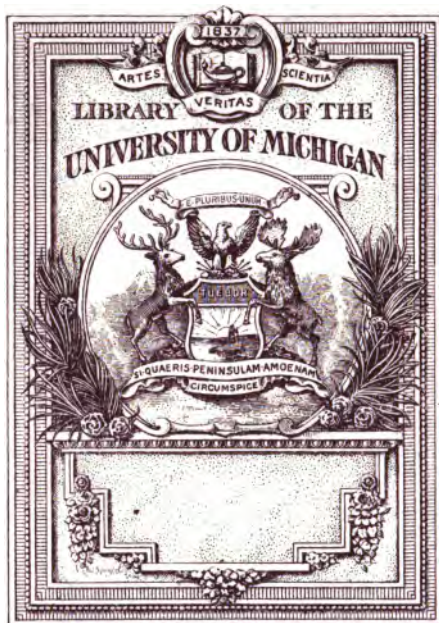

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

STATE OF NEW YORK.

ALBANY, N. Y., *March 19, 1906.*

Hon. MATTHEW LINN BRUCE, *President of the Senate:*

SIR.—We have the honor herewith to transmit our annual report for the year 1905.

REPORT.

OFFICE OF THE
STATE BOARD OF TAX COMMISSIONERS,
ALBANY, *March* 19, 1906.

To the Legislature of the State of New York:

Report is hereby made to your honorable body for the year 1905:

REAL ESTATE EXEMPTIONS.

The tabulation of exempt property herewith submitted is more complete than in our previous report, and we believe more correctly represents the value of real estate immune. The total of \$1,389,353,411 is an increase of \$61,438,429 over that of the preceding year, but bears approximately the same percentage to assessed real estate. Our inability to obtain an estimate of the value of canal property necessitates the omission of such property from the total.

PROPERTY ASSESSMENTS.

The aggregate assessed value of real estate for the year 1904 was \$7,051,455,025, an increase over 1903 of \$301,945,067. The personal property assessment for 1904 was \$758,893,605, a decrease from 1903 of \$60,309,560.

Returns for 1905 of the assessed value of real and personal property are not yet available, but tentative assessments in the city of New York show an increase in real estate of \$480,000,000 as against \$173,000,000 increase in 1904 and \$281,000,000 in 1903.

The increases in real estate assessments are practically held on the books, but personal assessments are vague guesses and must necessarily be so in large cities under our tax law. From a tentative assessment of three and a half billions, 80 per cent. is sworn off nearly every year for reasons so frequently given. It is conceded to be impossible to equitably tax personal property and real estate on the same basis; in fact, the attempt to do this works injustice and inequality, and only by taxing them at different rates suited to each class can we hope to attain approximate equality. The tendency to classify personal property and to tax at a uniform rate different classes must be apparent as the most feasible method of reaching intangible property. Stocks of banks, trust companies and similar fiduciary corporations are most satisfactorily operating under a uniform rate.

Individual investments free from tax cannot hope for a return of more than 3 or 4 per cent. Mortgages were debarred to residents of the State, unless the assessors failed in their duty or evasion was possible, for the reason that the local rates meant confiscation of 50 per cent., or more, of income.

MORTGAGE TAX RECEIPTS.

The total amount of moneys collected from all the counties under the mortgage tax law for six months was \$514,459.52; and the aggregate of expenses allowed by this Board was \$38,034.85, a trifle less than 8 per cent. for the cost of collecting. These figures however are misleading at this time, for the reason that there are included in the item of expenses the supplies for recording officers for nearly a full year, while the item of mortgage tax receipts fails to include a large number of mortgages

(those made payable on demand or one day after date) which are permitted to be recorded without the payment of any tax at the time of recording, and therefore not until after June 30th next, when the taxes upon these mortgages shall have become due, can it be correctly stated what the present law will produce; but it is safe to say that the amount of receipts at that time will be large in comparison with the amount already collected, and in addition thereto the regular annual taxes will accrue.

In New York and Kings counties mortgages aggregating \$750,000,000 were recorded in 1905. A flat rate of five mills would yield for the entire State approximately four millions of dollars.

SPECIAL FRANCHISES.

The number of corporations, firms and individuals required to make reports for the year 1905 was 1,728. Five thousand three hundred and eighty-seven separate valuations were certified to 986 tax districts, aggregating in amount \$356,829,555, being an increase over the year 1904 of \$54,140,798. The assessment of tangible property within the public streets and highways in 1899 (the year prior to the enactment of the special franchise tax law) as made by local assessors was \$96,061,902, making an increase in valuation under the special franchise law as made by the State Board for the intervening years of \$260,767,653.

COURT DECISIONS.

Other than the affirmation by the Supreme Court of the United States of the decision of the New York Court of Appeals in the special franchise tax cases, the most important determination of the courts bearing on the workings of the tax law was in

the case of the Pratt Institute against the city of New York, reported in 183 N. Y. 151, wherein it was held that any corporation or association incorporated or organized after the constitution of 1846, to obtain exemption from taxation must bring itself within the exemption clauses of the present general tax law, and this even though their charter gives them special exemption outside of such general law.

Some doubt had arisen whether villages and school districts were to be deemed tax districts in the distribution of the bank tax by boards of supervisors. The point was decided in the affirmative in *People ex rel. Kinderhook v. Supervisors*, 105 App. Div. 319, and in *City of Utica v. Board of Supervisors*, 109 App. Div. 189; both cases holding that schools and village districts, though not conforming to the definition of "tax district" given in section 2 of the Tax Law, are included as such in the section of the Tax Law governing the distribution of assessments of bank stock.

Another decision in the matter of the assessment of bank stock was made in the case of the First National Bank of Ossining, decided in 182 N. Y. 460, wherein it was held that assessors are required to include the value of the real estate in assessing the shares of stocks of banks and banking associations, the law declaring that in addition thereto the real estate should be separately assessed.

No decision of importance has been given by the courts under the new Mortgage Tax Law. There are at present three or four cases, involving minor points, being litigated, in which the lower courts have upheld the validity of the law.

RECOMMENDATIONS.

The question has arisen from time to time, and has been followed by considerable litigation in the courts, as to the right of a city to intervene and be heard in the proceedings before this Board and before the courts, to establish and sustain the special franchise assessments made by this Board of the corporations whose property is located in such city. This question has not been finally determined in the Court of Appeals, as to the right of intervention by municipalities in the courts, although the Court of Appeals has held (*People ex rel. Rochester Telephone Company v. Priest*, 181 N. Y. 301), that the board of assessors of a city has no such right to intervene and be heard in the matter of such assessments.

We see no reason why the city, which is interested in particular special franchise assessments, should not be represented at the hearings of this Board when it finally establishes such franchise valuations; and we regard it as advantageous that the city should also be allowed to intervene to protect such valuations, when certiorari proceedings are instituted in the courts for the purpose of reducing them. We would recommend that legislation be enacted by additional matter to sections 44 and 45 of the Tax Law, providing that the city in which a special franchise is located shall have notice of the final hearing before this Board provided for by section 44; and that upon certiorari proceedings to review such assessment, the writ to review may run also to the city, in the discretion of the judge granting it; or that upon application by the city the municipality may be allowed to intervene for the purpose of sustaining the assessment.

The general tax law provides that in case taxable property has been omitted from assessment for the preceding year the same

10 ANNUAL REPORT OF THE STATE BOARD OF TAX COMMISSIONERS.

may be entered upon the roll by the local assessors or board of supervisors the following year, under sections 33 and 53. No provision is found for correction in case of special franchise valuations.

We therefore recommend the adoption of an amendment to section 42, or the adding of a new section to article II of the Tax Law, providing for such omissions or errors as appear to have been made, in the same manner as prescribed in the general act.

Respectfully submitted.

WILLIAM HALPIN,
CEYLON H. LEWIS,
EGBURT E. WOODBURY,
Commissioners.

On motion of Tax Commissioner Stearns, Speaker Nixon was made Chairman of the Board.

On motion of Tax Commissioner Stearns, Herbert L. Austin was made Secretary of the Board.

The following report of the State Board of Tax Commissioners was presented by Tax Commissioner Stearns:

To the State Board of Equalization:

Returns from the 61 counties of the State for the year 1904 show the aggregate assessed value of all property as follows:

| | | |
|--|---------------|-----------------|
| Real estate..... | | \$7,051,455,025 |
| Personal property..... | \$758,893,605 | |
| Less amount not liable locally for State purposes..... | 72,182,990 | |

The following counties were officially visited during 1905:

| | | |

Our examination of local assessors and supervisors as to the percentage of assessments to full value in the various tax districts has not developed any important changes. Meetings are well attended, and the general discussions with county officials on all matters pertaining to taxation and tax laws result in more uniform assessments.

From all information furnished, and our personal examinations, we present for your consideration a table representing our determinations of a just equalization of values as between counties and recommend its adoption.

We have the honor to be,

Very respectfully,

LESTER F. STEARNS,
